

Leading the way in employability:

Pathways into Western Australia's liquefied natural gas (LNG) industry

Pre-application
Choosing the Right Course

Pre-departure
Accepting an Offer

Parallel Learning
Becoming Job Ready

Pre-acceptance
Receiving an Offer

On Arrival
Laying the Foundations

Career Matching

Students complete an online survey about their career preferences and personality traits to identify the right course and career.

Virtual Internships

Students test their study choice by completing a 10-hour virtual internship to ensure their course and career path are appropriate.

Online Modules (pre-arrival)

Students create a checklist and familiarize themselves with what to expect in Perth. They also start to create a record of achievements and experiences through a global skills program.

Online Modules (job readiness)

Students consider how they can transfer what they are learning into a job. This includes preparing for on-the-job placements and undertaking part-time work.

Thank You
